

What do I do with...?

How do I dispose of used motor oil?

As part of our recycling program we will accept up to 5 gallons of used oil per person. Our site is self-serve and you will empty your own container into the tank. Use 5 gallon (or smaller) oil containers. Throw away your container in designated container. We may accept larger quantities but you must call ahead to arrange drop off of drums and barrels.

How do I dispose of other types of oil?

Our recycling site will take other types of oil, we will accept up to 5 gallons of other oils per person.

How do I dispose of coolant?

We will accept antifreeze for a small charge. We will accept up to 5 gallons of coolant per person.

Important note: Oils mixed with any other products are not accepted and will be subject to appropriate fees and testing. Please keep it separate for proper recycling.

Other options include to dispose of used fluids: Take used oil to the Skagit County Transfer site on Ovenell Road for recycling or you may call our Solid Waste Division for help 360-855-1884
